

Minutes of Pre-Bid meeting regarding "Tender for Internet connectivity" held in the council office on 22/01/2016 at 3:30 PM.

PSCST had released tender notice for above said work on 16-01-2016. As per advertisement, the Pre-Bid meeting was held on 22-01-2016 at 03:30 PM in the Council office wherein following were present:-

Committee members:-

1. Er. Pritpal Singh, Senior Engineer, PSCST.
2. Sh. Umang Sharma, Associate Fellow (S.A.) MGSIPA.
3. Sh. Mandeep Singh, System Supervisor, PSCST.

Representatives of firms:-

1. Mr. Nitin Garg, Key Account Manager, Connect, Quadrant Televentures Ltd.
2. Mr. Deepak Joshi, M/s. Connect, Quadrant Televentures Ltd.
3. Mr. Lokender Pal, M/s. Connect, Quadrant Televentures Ltd.
4. Mr. Dalip Sharma, M/s. Conjoinix Technologies Pvt. Ltd.
5. Ms. Aditi Mahajan, M/s. Conjoinix Technologies Pvt. Ltd.
6. Mr. Sunny Koul, M/s. Vodafone Spacetel Ltd.
7. Mr. Chirag, M/s. Vodafone Spacetel Ltd.

The issues/queries raised by the various representatives were discussed and following decisions were taken/replies given:-

Sr. no.	Issue/Query	Reply
1	Whether rates for bandwidth be quoted per annum or for two years in the Proforma-II (Price Schedule) at page-21?	Bidder will quote rates for two years as the contract is for two years.
2	What media is to be used for providing backup connectivity?	It was clarified as mentioned in the tender document at page 17, the ISP will provide backup connectivity either over wired line or Radio link but it should be independent from the Primary link.
3	What are the specifications of the firewall mentioned in clause 1.3 at page 17?	The firewall should be either hardware or software based and for minimum 80 users. It should have basic features like capability to protect LAN from Internet hacking attempts, viruses and other malware and content filtering etc. The firm should quote rates for both hardware and software based separately.

4	As the firewall has warranty for one year only, if there any provision for AMC (Annual maintenance) for the second year?	It was informed that rates will also be quoted for the AMC for 2 nd year after the expiry of warranty period of the firewall.
5	What does maintaining uptime of 98% mentioned in "scope of work and detailed technical specifications" at page-17 means?	The 98% uptime means the dedicated bandwidth (1:1) availability over primary link including secondary (backup) Link.
6	Whether currently installed existing infrastructure/ Towers be used?	The existing infrastructure/ Towers are the property of existing ISP and the selected agency will have to install its own infrastructure for connectivity, if required.

The committee met on 27-01-2016 and ratified the decisions taken on 22-01-2016 and decided that the information with regard to the above said replies given w.r.t. queries raised by the firms present in the Pre-Bid meeting be communicated to them through e-mails as well as be uploaded on Council's website.
